

# Our Technology

## Ingredients

Vaportek's products use essential oils found in nature from trees, plants, and flowers. The proprietary blend of ingredients neutralize all organic odors.

## Dry Vapor Technology

Treat atmosphere, contents, and structures simultaneously! Vaportek's unique odor control systems employ proprietary compounds of select natural oils that are hermetically sealed into specially formed membranes. The membranes permit the oils to breathe through the surface of the envelope, allowing a safe dry vapor to be diffused into the air.

When Vaportek's compounds are volatilized, they react directly with odorous molecules in the air. Through this molecular interaction, Vaportek products effectively neutralize and/or cause these problematic malodorous molecules to be inactivated. With our dry vapor compounds' high mobility in the air and its ability to penetrate porous substances such as wallboard, wood, carpeting, cement, insulation, and other surfaces, our unique technology is able to permanently neutralize embedded odors. Our technology eliminates odors, it does not mask or cover-up.

## Organic Odors

Our technology eliminates organic odors. Here is a list of some of the organic odors our products have been proven to effectively neutralize:

- Mold/Mildew
- Mustiness
- Pet
- Urine
- Smoke/Fire
- Flood
- Garbage/Dumpster
- Sweat/Athletic
- Sewage
- Sour/Spoiled Dairy
- Skunk
- Hydroponic/Grow Rooms
- Protein Fires
- Cooking Odors Like Curry
- Dead/Decomposing Body
- And More!

## 100% Satisfaction Guarantee

We guarantee you'll love our environmentally preferable products! However, if you aren't completely satisfied with our products after using them, we'd be happy to reimburse you as our valued customer. Any claims on products purchased directly from Vaportek must be made within 30 days of purchase. Products purchased through Vaportek dealers must go through dealer of originating sale. Any equipment that is manufactured by Vaportek is covered by a five year limited warranty. Products defective from manufacturing error will be replaced. Please see the terms of our warranties for complete details. This warranty applies only to products sold and used in the United States.

A Brief Look

# Our Products

Our products are safe to use in occupied spaces. No ozone. No hydroxyl. No fogging. Eliminates odors - not a mask or cover-up.

# Our Products

## Electrical & Battery Systems

Xactimate codes apply to all electrical and battery systems: CLN DODRM, CLN DODRME, & CLN DODRMEM

### Optimum 4000™

Hospital-proven technology with adjustable output for constant deodorization. This 110V electric system is virtually silent. It uses spill-proof, replaceable cartridges which are available in several fragrances. Treats areas up to 20,000 ft<sup>3</sup>.

### Restorator DUO®

A rechargeable, easy-to-use, portable system. Put the battery-powered unit to work where electrical power has been interrupted or is not easily accessible. Treats areas up to 20,000 ft<sup>3</sup>.

### Restorator®

Compact system designed for fast, permanent deodorization. No evacuation or recovery period necessary. Replaceable cartridges rated at 270 hours of service. listed. Treats areas up to 20,000 ft<sup>3</sup>.

### Vaportronic® 2.0

Battery-operated wall cabinet uses replaceable EZ-Disk & EZ-Brick which are effective for up to 30 days and available in several fragrances. Features an On/Off switch with adjustable pulsing fan and a compact, tamper-resistant case. Treats areas up to 10,000 ft<sup>3</sup>.

### Vapor Shark®

Powerful, electric system treats atmosphere, structure, and contents simultaneously. Features durable aluminum housing. Uses up to five replaceable membranes. Treats areas up to 50,000 ft<sup>3</sup>.

### Portable Industrial™

Proven in disaster recovery situations worldwide. The powerful blower and 10-membrane capacity makes system ideal for large jobs. Features a heavy-duty aluminum case that weighs less than 20 lbs. Treats areas up to 200,000 ft<sup>3</sup>.

## Passive Systems

### EZ-Twist™ & EZ-Disk™

Non-electric. A simple twist allows precise deodorizing output for up to 30 days. The replaceable EZ-Disks are available in several fragrances. Treats areas up to 2,000 ft<sup>3</sup>.

### Heavy-Duty Standalone™

Non-electric. Simply rotate end caps to adjust air flow through cartridge. This product is designed for use in HVAC systems and can be used with high-velocity blowers and fans. Treats areas up to 20,000 ft<sup>3</sup>.

### Nature Fresh®

Non-electric. Adjustable deodorizing output. Nature Fresh is disposable or refillable after 60 days. The 3" unit treats areas up to 1,000 ft<sup>3</sup> and the 5" unit treats up to 2,000 ft<sup>3</sup>.

### Simple Clip System™

Non-electric. Disk with chain and clips is designed for basic deodorization. Clip to fan or hang in area where air movement helps provide instant, powerful deodorization. Ideal for utility closets, garbage areas, trucks, grease trap vents and more. Treats areas up to 4,000 ft<sup>3</sup>.

### EZ-360®

Non-electric. Simply rotate adjustable sphere to control air flow. Primarily intended to treat tough athletic odors found in gym bags, lockers, & sports gear such as skates and shoes. Available only in Specialty Fragrances. Stays fresh for 30 days.

## Liquid Line—Now Dye Free

### Bio-C™

Powerful, fast acting three-stage concentrate that includes enzymes; five strains of dormant, non-pathogenic bacteria & fragrance. Starts to work immediately. Actively accelerates the natural breakdown of organic matter. When diluted, billions of powerful, non-pathogenic bacteria aggressively attack organic waste by enzymatically digesting the source of the stains and odors. Powerful spore and free enzyme suspension. Neutral pH, no alcohol, non-flammable, biodegradable, & non-corrosive. Available in gallons, 5 gallon mini-drums, & 55 gallon drums.

### Bio-C GP™

A two-stage concentrate that includes five strains of dormant, non-pathogenic bacteria & fragrance. Bacteria become totally involved in 4-6 hours. Enzyme are created as product starts to work. When diluted and applied to affected carpets, padding, flooring, vehicle interiors, and other porous surfaces, billions of powerful, non-pathogenic bacteria aggressively attack organic waste by enzymatically digesting the source of the stains and odors. No slippery residue on hard surfaces, neutral pH, no alcohol, non-flammable, non-corrosive, non-staining, & biodegradable. Available in gallons, 5 gallon mini-drums, & 55 gallon drums.

### ECOZ™

A highly concentrated, water-soluble, odor-neutralizing liquid that can be used alone or to enhance any cleaning solution by providing an extra measure of deodorization.

Specifically formulated for commercial and industrial use. Biodegradable, no alcohol, non-flammable, non-corrosive, zero suds profile, & neutral pH. Available in several fragrances & in gallon, 5 gallon mini-drum, & 55 gallon drum sizes.

### Pet Liquids: ECOZ™ Lemon & Bio-C GP™

Two unique products which are perfect for all of your pet related issues. Use ECOZ for cleaning carpets or pet bedding. Use Bio-C GP to aggressively attack pet stains and odors. Available in quart size only.
