

Our Technology

Ingredients

Vaportek's products use essential oils found in nature from trees, plants, and flowers. The proprietary blend of ingredients neutralize all organic odors.

Dry Vapor Technology

Treat atmosphere, contents, and structures simultaneously! Vaportek's unique odor control systems employ proprietary compounds of select natural oils that are hermetically sealed into specially formed membranes. The membranes permit the oils to breathe through the surface of the envelope, allowing a safe dry vapor to be diffused into the air.

When Vaportek's compounds are volatilized, they react directly with odorous molecules in the air. Through this molecular interaction, Vaportek products effectively neutralize and/or cause these problematic malodorous molecules to be inactivated. With our dry vapor compounds' high mobility in the air and its ability to penetrate porous substances such as wallboard, wood, carpeting, cement, insulation, and other surfaces, our unique technology is able to permanently neutralize embedded odors. Our technology eliminates odors, it does not mask or cover-up.

Organic Odors

Our technology eliminates organic odors. Here is a list of some of the organic odors our products have been known to effectively neutralize:

- Mold/Mildew
- Mustiness
- Pet
- Urine
- Smoke/Fire
- Flood
- Garbage/Dumpster
- Sweat/Athletic
- Sewage
- Sour/Spoiled Dairy
- Skunk
- Hydroponic/Grow Rooms
- Protein Fires
- Cooking Odors Like Curry
- Dead/Decomposing Body
- And More!

100% Satisfaction Guarantee

We guarantee you'll love our environmentally preferable products! However, if you aren't completely satisfied with our products after using them, we'd be happy to reimburse you as our valued customer. Any claims on products purchased directly from Vaportek must be made within 30 days of purchase. Products purchased through Vaportek dealers must go through dealer of originating sale. Any equipment that is manufactured by Vaportek is covered by a five year limited warranty. Products defective from manufacturing error will be replaced. Please see the terms of our warranties for complete details. This warranty applies only to products sold and used in the United States.

Pioneering Simple Solutions for Tough Odors Naturally Since 1979

Eliminate organic odors with environmentally preferable and proven essential oil, dry vapor technology.

Safe
Simple
Natural

Our products are safe to use in occupied spaces. No ozone. No hydroxyl. No fogging. Eliminates odors - not a mask or cover-up.

Electrical & Battery Systems

Xactimate codes apply to all electrical and battery systems: CLN DODRM, CLN DODRME, & CLN DODRMEM

Optimum 4000™

Hospital-proven technology with adjustable output for constant deodorization. This 110V electric system is virtually silent. It uses spill-proof, replaceable cartridges which are available in several fragrances. CSA/CUL listed. Treats areas up to 20,000 ft³.

Restorator DUO®

A rechargeable, easy-to-use, portable system. Put the battery-powered unit to work where electrical power has been interrupted or is not easily accessible. Treats areas up to 20,000 ft³.

Restorator®

Compact system designed for fast, permanent deodorization. No evacuation or recovery period necessary. Replaceable cartridges rated at 270 hours of service. Available in 110V. CSA/CUL listed. Treats areas up to 20,000 ft³.

Vaportronic 2.0™

Battery-operated wall cabinet uses replaceable EZ-Disks which are effective for up to 30 days and available in several fragrances. Features an On/Off switch with adjustable pulsing fan and a compact, tamper-resistant case. Treats areas up to 10,000 ft³.

Vapor Shark®

Powerful, electric system treats atmosphere, structure, and contents simultaneously. Features durable aluminum housing. Uses up to five replaceable membranes. CSA/CUL listed. Treats areas up to 50,000 ft³.

Portable Industrial™

Proven in disaster recovery situations worldwide. The powerful blower and 10-membrane capacity makes system ideal for large jobs. Features a heavy-duty aluminum case that weighs less than 20 lbs. Treats areas up to 200,000 ft³.

Passive Systems

EZ-Twist & EZ-Disk™

Non-electric. A simple twist allows precise deodorizing output for up to 30 days. The replaceable EZ-Disks are available in several fragrances. Treats areas up to 2,000 ft³.

Heavy-Duty Standalone™

Non-electric. simply rotate end caps to adjust air flow through cartridge. This product is designed for use in HVAC systems and can be used with high-velocity blowers and fans. Treats areas up to 20,000 ft³.

Nature Fresh®

Non-electric. Adjustable deodorizing output is available in several fragrances. Nature Fresh is disposable or refillable after 60 days. The 3" unit treats areas up to 1,000 ft³ and the 5" unit treats up to 2,000 ft³.

Simple Clip System™

Non-electric. Disk with chain and clips is designed for basic deodorization. Clip to fan or hang in area where air movement helps provide instant, powerful deodorization. Ideal for utility closets, garbage areas, trucks, grease trap vents and more. Treats areas up to 4,000 ft³.

Sachet

Green velveteen bag contains replaceable disk which is effective for up to 30 days and is available in several fragrances. Sachets are excellent dealer promotions, trade show giveaways, and appreciation tokens.

Deodor Grans®

Naturally formulated dry granules provide fast, long-lasting odor neutralization. Features citronella to help deter flying insects. Features citronella to help deter flying insects. Ideal for garbage dumpsters, trucks, trash cans, schools, outdoor dining areas, and for sprinkling in ash trays. Available in a 15 lb. pail and a 50 lb. box.

Liquid Line

Bio-C™

Powerful concentrate. Includes enzymes and nonpathogenic bacterial cultures to breakdown organic waste naturally, effectively, and immediately. Features a unique formula that contains 255 billion colony-forming bacterial units per gallon along with Vaportek's nontoxic odor neutralizer. Eliminates greasy buildups that can trap hair, soap, food, and other waste found in drains and grease traps. Biodegradable, nontoxic, nonflammable, and not caustic. Not to be used with disinfectants. Contains surfactant to aid cleaning function. Available in quarts, gallons, 5 gallon mini-drums, and 55 gallon drums.

Bio-C GP™

General purpose concentrate. Offers a powerful bacterial blend that creates specific natural enzymes within one hour and becomes totally involved in 4-6 hours. Apply directly to the odor source. Spot treat stained carpets and fabrics, including vehicle interiors. Biodegradable, nontoxic, nonflammable, will not stain, and not caustic. Not to be used with disinfectants. Available in quarts, gallons, 5 gallon mini-drums, and 55 gallon drums.

Contact N™

Our only fragrance-free and ready-to-use liquid. This odor counteractant, with multi-bacterial action, works on dry and wet surfaces. Works immediately to safely neutralize smoke, food, perspiration, pet, and many other organic odors without introducing a scent. Biodegradable, nontoxic, nonflammable, will not stain, and not caustic. Available in quarts and 5 gallon mini-drums. The strongest microbial action in the industry!

ECOZ™

Concentrated, water-soluble, odor-neutralizing liquid. Specifically formulated for commercial and industrial use on floors, walls, and other surfaces. Enhances cleaning with an added measure of deodorization; compatible with other cleaning solutions. Biodegradable, nontoxic, nonflammable, not caustic, and leaves no residue. Does not breakdown in high heat, has a zero suds profile, and has a neutral pH. Available in several fragrances and in quart, gallon, 5 gallon mini-drum, and 55 gallon drum sizes.
