Locker Room Odors Knocked Out

David Roy puts Bio-C and the Heavy-Duty Standalone to the Test!

At Gold's Gym in Keene, NH, Facilities Manager David Roy needed a solution to various locker room odor problems after trying many products without success.

The answer to his problems was found with VaporTek's Heavy-Duty Standalone Cartridge. When asked about the effectiveness of our products, Roy replied, "We have noticed a major improvement in the locker room smell, as well as the atmosphere. The Heavy-Duty Standalone Cartridges—combined with VaporTek's Bio-C drain and odor treatment—have produced fresh, clean-smelling air."

Roy was also satisfied with the value of our products: "We felt the purchase of the VaporTek system would pay for itself because it would eliminate the need for other products," said Roy. "We have not been disappointed!"

Here at VaporTek, we take pride in our ability to help our customers solve their tough odor problems. As we did with Roy, we want to be *your* air quality partners. ASK what VaporTek products can do for you!

"[VaporTek products] have produced fresh, clean-smelling air."

"...[A] major improvement in the locker room smell, as well as the atmosphere."
