

## TECHNICAL DATA

### HEAVY DUTY STAND ALONE LB

#### PURPOSE

- Easy to use non-electric odor neutralizer based on our proven HDSA 2.0 product.
- Treats areas up to 2,000 cubic feet using natural airflow or external fans.
- Lasts up to 60 days in normal use. Features Vaportek's proprietary essential oil blend, released as a dry vapor to penetrate porous surfaces to permanently control organic odors.

#### UNIQUE BENEFITS

- Electricity is not needed.
- May be used in occupied spaces.
- No ozone.
- Substantial odor neutralizing capacity.
- Commercial grade proven technology.

#### IMPORTANT INFORMATION

- Store in a cool, dry condition.
- Elevated temperatures will reduce typical 45-60 day lifespan.
- This product leaves no residue and does not create ozone.
- This product contains essential oils. If reaction occurs, discontinue use immediately.
- Dimensions are approximately 5" tall x 2" diameter.

#### PRODUCT DESCRIPTION

- Uses the proven Vaportek dry vapor technology found in our bigger, original Heavy Duty Commercial Odor Neutralizer, but, in a smaller and economical form.
- Releases a non-toxic dry vapor which acts quickly to control and eliminate organic odors.
- Rotating endcaps allow for adjustable airflow through the cannister to control output. Closing these vents will prolong life of product.
- Compact yet powerful, this 5" tall black cannister can be located in many places where access is limited. The dry vapor penetrates porous surfaces and effectively treats smoke, fire and flood related odors with our proprietary blend of essential oils. Excellent for use after disaster clean up.
- Rated for indoor spaces up to 2,000 cubic feet and lasts up to 60 days.
- Compatible with HVAC systems. Can be easily installed on the intake side of air handlers. May also be placed behind air vents for inconspicuous odor treatment.
- Ideal for odor prone spaces, such as closets, vehicles, bathrooms, garbage areas and more. Optional black wall clip is available for easy mounting and replacement with new units.

## TECHNICAL DATA

### HEAVY DUTY STAND ALONE LB

Canister is approximately 5" tall x 2" diameter for convenience and versatility

Adjustable vents on top and bottom

Optional EZ Clip for permanent installation

Flat surface for optional adhesive mount

### PLACEMENT

- Use vertically or horizontally as a stand alone device.
- May also be clipped into desired locations using the optional EZ Clip (sold separately).
- To improve performance, higher placement will generally result in better dispersion.
- Twist top and bottom air vents to reduce or increase vapor release.

## SUGGESTED APPLICATIONS

- Before and after disaster clean up
- Behind air vents
- With high velocity air movers for carpet and content drying processes
- Tight spaces with odor contamination
- Vehicles and storage spaces
- Refuse areas
- And many more!

Single use product. Recycle responsibly after use.
