OUR TECHNOLOGY

INGREDIENTS

Vaportek's products feature natural essential oils from trees, plants, and flowers. Our proprietary blends of ingredients neutralize organic odors quickly and safely.

DRY VAPOR-SAFER TECHNOLOGY

A safe and effective alternative to ozone treatments. May be used in any occupied space.

Treat atmosphere, contents, and structures simultaneously! Vaportek's unique odor control systems employ natural oils that are hermetically sealed into specially formed membranes. The membranes permit the oils to "breathe" through the surface of the envelope, allowing a safe dry vapor to be diffused into the air.

With our dry vapor compounds' fast action and its ability to penetrate porous substances such as wallboard, wood, carpeting, cement, insulation, and other surfaces, our unique technology is able to permanently neutralize embedded odors. Our technology eliminates odors, it does not mask or cover-up.

ORGANIC ODORS

Here are just some of the organic odors our products have successfully treated in decades of use worldwide:

Mold/Mildew	Sweat/Athletic
Pet/Animal	Sewage
Smoke/Fire	Hydroponic/Grow Rooms
Flood	Cooking Odors Like Curry
Garbage/Dumpster	And More!

RESTORE AND REFRESH

EST. 1979

Part Number: 50-1000D Rev. 11/26

VAPORTEK®
RESTORE AND REFRESH

SAFELY ELIMINATE ODORS

CREATES NO OZONE

PROVEN PERFORMANCE

FOR NEARLY 50 YEARS

NATURALLY EFFECTIVE

FEATURES ESSENTIAL OILS

MADE IN USA

Product Highlights

All items are safe for use in occupied spaces – No evacuation needed

Heavy Duty Stand Alone

Non-electric, passive, powerful deodorizing system

- Designed for HVAC systems, compatible with air movers and fans
- Available in 3X, S.O.S. & Lemon formulas
- Mounting plate for easy install and anti-roll factor
- Eyelet for cable tie attachment
- Treats areas up to 20,000 cubic feet

Restorator®

Portable system for permanent deodorization

- No evacuation or recovery needed
- Replaceable cartridges, 270 hours of service
- 3X Industrial and S.O.S. formulas recommended for use
- Treats areas up to 20,000 cubic feet

HDSA LB 3X

Non-electric, passive deodorizing system

- This odor neutralizer and odor eliminator uses dry vapor essential oil technology without sprays or powders, with an adjustable vented end cap for controlled output
- Suitable for enclosed areas with unwanted or musty odors, including basements and storage spaces
- Compatible with HVAC systems for passive deodorization
- Treats up to 2,000 cubic feet and is rated for up to 60 days

Optimum 4000

Eliminate odors safely

- Adjustable output, 110V electric system
- Virtually silent operation
- Spill-proof, replaceable cartridges
- Variety of fragrances available *(Neutral recommended for optimal deodorization)*
- Treats areas up to 20,000 cubic feet

Optimum 3000

3-stage machine featuring a deodorizing cartridge, charcoal air filter, and ionizer

- Adjustable output, 110V electrical system
- Treats areas up to 12,000 cubic feet

Nature Fresh MAX and MINI

Non-electric, passive deodorizing system

- Self-contained, adjustable output
- Lasts up to 60 days
- Popular in medical and hospitality markets
- Mini is available in neutral and winter fragrance
- Available in 3" and 5" units (treating 1,000 and 2,000 cubic feet, respectively)

Vapor Shark®

Powerful, industrial strength system for permanent deodorization

- Durable aluminum housing
- Holds up to 5 replaceable membranes
- 3X Industrial, S.O.S. and lemon formulas available for use
- Treats areas up to 50,000 cubic feet

EZ-Clip

For use with EZ-Disk and Nature Fresh products

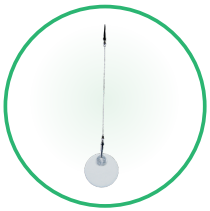

- Can hold up to (2) EZ-Disks or (1) Nature Fresh canister
- Includes mounting tape for easy installation, plus a screw opening for added versatility
- Allows for more exposure of EZ-Disk for stronger odor treatment
- Clip allows product to be mounted in more discreet, out-of-reach areas

EZ-Twist System

Non-electric, passive deodorizing system

- Simple twist for deodorizing up to 30 days
- Replaceable EZ-Disks in various fragrances
- Treats smaller spaces up to 2,000 cubic feet

Simple Clip System

Non-electric, passive, economical deodorizing system

- Disk includes alligator clip for easy installation
- Ideal for utility closets, garbage areas, work trucks, grease traps, vents, and more
- Treats areas up to 4,000 cubic feet

LIQUID SERIES

Bio-C® | ECO-FRIENDLY CLEANER

Powerful, fast acting concentrate

- Breaks down organic matter and neutralizes residual odor
- 3-stage process utilizing enzymes, non-pathogenic bacteria, and essential oils
- Neutral pH, no alcohol, non-flammable, biodegradable, non-corrosive
- Effective for grease traps, crawl spaces, dumpsters, storm drains, plumbing, and more!

ECOZ | GREEN ODOR CONTROLLER

Water-soluble, odor-neutralizing liquid concentrate

- May be mixed with any cleaning solution for added deodorization
- Works well with fog and steam treatments
- Zero suds profile, neutral pH, no alcohol, non-flammable, non-corrosive, biodegradable
- Available in (4) formulas (Neutral, S.O.S., Linen, Lemon)
